GENERAL INFORMATION

Sale Location: Booth's Cherry Creek Ranch, Inc., 17 miles SW of Torrington, Hwy 154 or 1 1/2 miles N and 3 W of Veteran, Wyo. Phone: 307-837-0164

Motel Accommodations: Holiday Inn Express, Hwy 26, Torrington, WY, Phone 307-532-7600. Best Value Inn, 1548 S. Main St., Torrington, WY. Phone 307-532-7118.

Transportation: Scottsbluff Airport accommodates commuter planes from Denver International Airport. Private planes may land at the Torrington Airport.

Inspection of Cattle: Cattle may be inspected prior to sale day at the Cherry Creek Ranch.

Insurance: Terms and conditions on the back cover of this catalog. Will be available through Harding & Harding. T.V. Jones is their representative.

Terms: Cash - please settle for cattle promptly. Retaining 1/3 breeding interest on all bulls in the sale.

Health: Interstate health papers will be provided on all cattle selling.

Brand Inspection: Bulls brand inspection will be provided on cattle selling

Trucking & Delivery: We will feed and deliver the bulls until April 1st free of charge. Most likely, the bulls will be delivered the last week of March, however we cannot guarantee day of delivery. Bulls are delivered at the buyer's risk, in case of death or injury. For buyers who need to leave their bulls a little later, feed will be at cost and we ask that you make arrangements for delivery or pick them up. Bulls will be delivered free of charge up to 250 miles (up to 500 if purchase is six bulls or more) after that, we will charge at cost. There will be a \$200 per bull rebate if taken sale day.

Liability: All persons attending this sale do so at their own risk, legal or otherwise, for their safety or the behavior of the animals. The Owner, Auction Service, or Sale Staff assume no liability for property loss or accidents that may occur.

Lunch: Complimentary lunch will be available sale day.

Weather: Past experience indicates that if the weather is questionable in your area and your travel plans seem doubtful, please listen to your local radio for our sale announcements. **Snow Date: Monday, Feb. 15, 2017.**

CHERRY CREEK'S PROGRESS THRU PERFORMANCE BULL SALE

Welcome to our 44th Annual "Progress Thru Performance" bull sale.

This is the third year of taking bulls to 8,000 ft. at the Bow Fiddle Ranch near Centennial for Dr. Holt to PAP test. We are learning a lot about our own cowherd and are pleased and confident on how well these bulls continue to perform at elevation.

Another new performance test we have begun is the I50K DNA test. The HD Rank you see in the footnotes are how they rank by percentages in the breed from DNA markers. In cowman terms, the accuracy increase you see on their EPD's is the same as if they had already sired one calf crop. More information is on the next page.

We think this set of bulls is remarkable and look forward to having you evaluate them sale day. We "Thank You" for your consideration.

*Regards,
The Booth's*

Watch & bid online for **FREE** at

DVAuction
Broadcasting Real-Time Auctions

**View the Auction Live!
Bid Online... you're ringside
right at your desk!**

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

DVA Rep. Justin Dikoff (605) 290-0635 - email: jdikoff@dvauction.com
Please feel free to contact me with questions about the sale or to view the cattle for you.

With the reality that sometimes young bulls become injured during their first breeding season, we have worked to come up with a fair and reasonable way to share this risk with our bull customers.

GUARANTEE

All bulls selling for \$2,500 or more will be covered 50% by Cherry Creek Ranch if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. 50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a following sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Cherry Creek Ranch and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2017.

Example 1: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus full salvage value will be given to the buyer.

Example 2: A \$2,500 bull is injured and will not heal. A credit of \$1,250 minus full salvage value will be given to the buyer.

Example 3: A \$2,400 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

Should you desire to add coverage to the guarantee by Cherry Creek Ranch, TV Jones with American Livestock Insurance will be at the sale, please visit with him following the sale to make insurance arrangements. They offer full mortality coverage should you desire to purchase it.

ABOUT THE CATALOG

The sale order is catalog order. The catalog will be as complete as possible upon printing date. There will be a supplement sheet offered the day of the sale including scrotal measurements and actual sale day weights. This information will also be found on our website www.boothscherrycreekranch.com. If you have any questions concerning any of the bulls or anything pertaining to the sale in general, please call Shawn or Michael.

Thank you for your consideration,
Booth Family

WHY WE TEST WITH i50K FROM ZOETIS

Powered by i50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're confident that customers like you can minimize risk in their investment — and enhance the productivity of your cattle.

The benefits of buying i50K-tested bulls and heifers goes beyond added accuracy for the complete range of traits for more productive daughters and progeny. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. You can also match the i50K tested sires you buy from us to match calves and replacement heifers — through GeneMax® Advantage™ and GeneMax® Focus™ — to make better breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with i50K.

Number of progeny records in conventional genetic evaluation needed to achieve the same accuracy as GE-EPDs powered by i50K

 Eura Elga of Conanga 9109
 Eura Cal of Conanga 56B

His calves are showy and quiet; making them excellent club calf prospects. His progeny are showing impressive muscle patterns early in their development and have jet black hair. His calm demeanor is being passed on to his progeny; he as an individual, is as quiet as they come.

Offers high accuracy Calving Ease combined with excellent thickness and maternal design. Outstanding overall performance through the commercially oriented Angus Sire Alliance testing program where he ranks in the top 5% across the board for Total Profit, Feed Efficiency and Maternal Index. Progeny proven efficiency sire who ranks in the top 1% for reduced feed intake. Sires complete, attractive and sound made cattle with excellent docility. His solid calving ease and maternally oriented data package combined with a no holes phenotype add up to great customer satisfaction and mating flexibility.

Prophet exemplifies what the beef business is all about – cattle that are born easily, grow fast, excel for end-product premiums, make high-performance replacement females and ultimately, deliver PROFIT! His acceptance in both purebred and commercial sectors has been phenomenal and our customers are reaping the rewards. Ranking in the Top 1% of the Angus breed for 7 traits of merit, Prophet provides genetic advantages for every segment of the industry.

One of the top selling bulls in our 2012 bull sale where he dominated his contemporary group having the heaviest weaning ratio of 115, yearling ratio of 112, and scanned the largest ribeye of 17 inches that had a ratio of 130! He was sired 68 progeny at Cherry Creek that have a ratio of 101 at birth, 102 at weaning and yearling, with 67 progeny scanning 98 on IMF and 102 on ribeye. These sons will be his very last progeny here at Cherry Creek.

Our pick of the Upward sons at the Haynes Cattle Company bull sale in 2011. One of the most calving ease sons of Upward we have even been around with CED of 11 and -.2 on BW. His progeny have excelled at elevation when we PAP test his sons and have sold very well in past sales including some of the high selling bulls in 2014. His daughters have been doing an amazing job already as their sons are some of the very first lots in this years sale. So far they have an average weaning ratio of 104!

 Shady Brook Entense 76D 29H
 Nichols Extra H6
 Ms CCR Dianna 3257 5372 M
 Ms CC Dianna 8641 3257G

We have used Destination 2513 the last two years on heifers with great success. His sire, SydGen 928 Destination 5420, is deceased with very limited semen supply. Dam is one of the best cows we have raised and is the dam of Cherry Crk Higher Standard, who is enrolled in ABS Global, Inc. 2513's first progeny are extreme calving ease, docile, and very structurally correct. Owned with Don Cox of Chugwater, WY.

Redemption has reached the pinnacle of the breed, and is widely recognized as one of the breed's best, all-around sires. This prepotent sire of rapid early growth and moderate mature size continues to be the choice of progressive herds looking to build a highly productive and profitable cow herd base. His daughters are impressive for udder quality as well as foot shape.
