ON DAY OF SALE**

GENERAL INFORMATION

Sale Location: Booth's Cherry Creek Ranch, Inc., 17 miles SW of Torrington, Hwy 154 or 1 1/2 miles N and 3 W of Veteran, Wyo. Phone: 307-534-5865.

Motel Accommodations: Holiday Inn Express, Hwy 26, Torrington, WY, Phone 307-532-7600. Best Value Inn, 1548 S. Main St., Torrington, WY. Phone 307-532-7118.

Transportation: Scottsbluff Airport accommodates commuter planes from Denver International Airport. Private planes may land at the Torrington Airport.

Inspection of Cattle: Cattle may be inspected prior to sale day at the Cherry Creek Ranch.

Insurance: Terms and conditions on the back cover of this catalog. Will be available through Harding & Harding. Jiim Geis is their representative.

Terms: Cash - please settle for cattle promptly. Retaining 1/3 breeding interest on all bulls in the sale.

Health: Interstate health papers will be provided on all cattle selling.

Brand Inspection: Bulls brand inspection will be provided on cattle selling.

Trucking & Delivery: We will feed and deliver the bulls until March 20, 2020 free of charge. Most likely, the bulls will be delivered the last week of March, however we cannot guarantee day of delivery. Bulls are delivered at the buyer's risk, in case of death or injury. For buyers who need to leave their bulls a little later, feed will be at cost and we ask that you make arrangements for delivery or pick them up. Bulls will be delivered free of charge up to 250 miles (up to 500 if purchase is six bulls or more) after that, we will charge at cost. There will be a \$200 discount per bull if taken sale day, or a \$100 refund if buyer picks up bull by April 1, 2020.

Liability: All persons attending this sale do so at their own risk, legal or otherwise, for their safety or the behavior of the animals. The Owner, Auction Service, or Sale Staff assume no liability for property loss or accidents that may occur.

Lunch: Complimentary lunch will be available sale day.

Weather: Past experience indicates that if the weather is questionable in your area and your travel plans seem doubtful, please listen to your local radio for our sale announcements.

Sale Day Address: 2162 Road 60, Veteran, WY 82243 • **Mailing Address:** 2749 Road 60, Veteran, WY 82243
307-534-5865 • 307-532-1830 • **Emails:** boothangus@scottsbluff.net • lindsaybooth23@gmail.com

CHERRY CREEK'S

PROGRESS THRU PERFORMANCE

BULL SALE

Welcome to our 47th Annual "Progress thru Performance" Bull Sale

After going through one of the most challenging years this ranch has ever experienced, we were blessed with one of the nicest calf crops born in the fall of 2018. We were not able to wean until April with all the March blizzards, and some of the bull calves were approaching 1,000 lbs.! With almost all of the 205 adj. weaning weights being adjusted backwards the calves still demonstrated tremendous performance and growth. Keep in mind the calves are only supplemented roughages and no creep.

In June the bulls were taken to Grizzly Ranch between Walden and Steamboat Springs where they were PAP tested at roughly 8,200 ft. With the increase in elevation we were apprehensive and did not take them all. They exceeded our expectations dramatically with 70% scoring 45 or less, qualifying those to go at any elevation with minimal risk.

We once again have performed nearly every test on these bulls imaginable for enhanced predictable scores to help you see the differences of the genetic impact on your herd. We stand behind them and are proud of the offering.

Once again, we value your consideration and hope to see you at the sale.

Warmest regards,

The Booths

Shawn and Diane

Powerpoint has solidified his place as a heifer safe sire with the extra substance and capacity demanded for rugged country. Some of the most respected stockmen are tapping into this marbling specialist for his outcross calving ease with no sacrifices in performance or consistent visual appeal to the calves.

Sitz Ellunas Elite 35M

Response is a proven calving-ease Resource son from the dam of Sitz Investment that will add muscle, forerib and base width. He will consistently sire stouter, denser-bodied cattle than expected for most sires at his level of calving ease. Here is an opportunity to use a low birth weight Resource son with a powerhouse dam who has five calves ratioing 91 for BW, 105 for WW and 104 for YW.

M A R Blackbird 8067

This moderate Birth Weight EPD young sire with elite percentile rankings for Weaning Weight EPD and Yearling Weight EPD has an impressive phenotype and the look of a herd sire. Produced by a top daughter of the Pathfinder Sire Hoover Dam that has been one of the most widely-used sires in the Angus breed for the past five years, the dam of this young stud balanced a birth ratio of 96 with a weaning ratio of 102 on her first four natural calves with two yearlings recording an average ratio of 105 to continue the tradition of her Pathfinder Dam that produced until 17 years of age with nine progeny balancing an average birth ratio of 96 with an average weaning ratio of 107 while seven yearlings had an average ratio of 105.

 K C F Bennett Homestead
 K C F Miss Quality P164
 KG Solution 0018
 Cherry Crk Eva B27 M
 Cherry Crk Eva 2145 M

Cherry Creek Land Grant is a high performance son out of the maternal standout, Homestead. He ranks #1 among Homestead sons for yearling growth and \$B index. He has well balanced phenotype and well balanced data ranking in the top third of the breed in 17 categories. He should offer all of the maternal design quality of Homestead with more performance and an even stronger overall data package. His grandam is still in production on our ranch. Land Grant is owned by Knoll Crest Farms, VA, and ABS Global, Inc. WI. Semen can be purchased through ABS.

FSHK Pride 180
FSHK Pride 725

Sure re calving ease combined with added performance, thickness and musde. Ranks in the top 2% of the breed for Calving Ease EPD with growth and rib eye values in the top 20%. Dam has been a stalwart of the Stevenson program and has also produced Stevenson CE Deluxe 1914 and Stevenson Hero I216U. Progeny are moderate and correct with super thickness and eye appeal. His first daughters are eye catching females with near perfect udders.

PAP Risk Category Flow Chart

Timothy N. Holt, DVM

Lisa Herrick, Certified PAP Technician

2019

Location of Pap test: Walden, Colorado

Elevation 8,175 feet

“Booth Angus”

“Cherry Creek Angus”

PAP Risk Factor

High Elevation Test Chart

PAP test conducted at elevation >7,500 ft.

For a stay at elevation for 6 weeks

(75-90% Repeatable, Predictive Value)

PAP Score	Use at Low Elev. (<4,000 ft.)	Use at Moderate Elev. (4,000-5,000 ft.)	Use at High Elev. (5,500-7,500 ft.)	Use at Extreme Elev. (7,500 ft.)
34-41	Low Risk	Low Risk	Low Risk	Low Risk
42-44	Low Risk	Low Risk	Low Risk	Low Risk
45-49	Moderate Risk	Moderate Risk	Moderate Risk	High Risk
> 50	Moderate Risk	Moderate Risk	High Risk	High Risk

- When selecting an animal based on a PAP measurement other factors besides those listed above should be considered such as genetics or pedigree, PAP EPD's , Systolic/Diastolic pressures, breed and previous illness.
- Special consideration should be given to the amount of time the animal was exposed to elevation (>5500 ft) prior to testing. The predictability and repeatability of the PAP measurement improves with longer the exposure to higher elevation (minimum of 3 weeks is required).
- This chart is based on animals greater than 10 months of age. Testing older animals (>12 months) results in a higher predictive and repeatability measurement.
- Testing of younger animals (<10months) may result in a greater variability to the predictive and repeatability measurement.

DEFINITIONS:

- **Repeatable or Repeatability Percent:** This is a term used to give strength to a given PAP score predicting that If a retest PAP was carried out later in life then the score would be close to or within the same category as the original measurement. For example; a PAP measurement taken below 4000 feet only has a 40% repeatable percent meaning that a repeat test only has a 40% chance of staying within the same risk category as the original test.
- **Predictive Value:** This term is closely related to repeatability percent but specifically says that the original score can accurately predict what that animal will retest in a higher elevation.
- **Risk:** Defined as the likelihood of an animal developing pulmonary hypertension themselves or being at risk for having a genetic predisposition for the disease

Watch & bid online for FREE at

**View the Auction Live!
Bid Online... you're ringside
right at your desk!**

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

DVA Rep. Justin Dikoff (605) 290-0635 - email: jdikoff@dvauction.com
Please feel free to contact me with questions about the sale or to view the cattle for you.

With the reality that sometimes young bulls become injured during their first breeding season, we have worked to come up with a fair and reasonable way to share this risk with our bull customers.

GUARANTEE

All bulls selling for \$2,500 or more will be covered 50% by Cherry Creek Ranch if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turn out of the bull. 50% of the value of the injured bull, minus FULL salvage value will be given as a credit. If a replacement bull is available of equal or higher quality the bull will be replaced, otherwise the credit can only be applied to the next year's bull sale. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible if an injury occurs, and prior to the injured bull being sold for salvage. All claims must be made by Sept. 1, 2020.
Example 1: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus one-half any salvage value will be given to the buyer.

Example 2: A \$2,500 bull is injured and will not heal. A credit of \$1,250 minus one-half of any salvage value will be given to the buyer.

Example 3: A \$2,400 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

Should you desire to add coverage to the guarantee by Cherry Creek Ranch, Jim Geis with American Livestock Insurance will be at the sale, please visit with him following the sale to make insurance arrangements. They offer full mortality coverage should you desire to purchase it.

ABOUT THE CATALOG

The catalog will be as complete as possible upon print date. There will be a supplement sheet offered on sale date. Scrotal measurements and actual sale day weights are provided on page 57 of the catalog. If you have any question concerning any of the bulls or anything pertaining to the sale in general, please call.

Thank you for your consideration.

Warmest regards,
Shawn Booth
